Greg,

Will is going to check monthly reports to see which addresses are listed in the report. Can you help him with a number of houses (approximate anyway) and timeframe to search? He will send you the addresses he finds. thanks

Marie - Is there any way you can do this for Greg by reviewing the file and compiling the list? He is very busy with the oil spill and I was trying to give him some help on this.

If I can be of assistance or answer any questions, please contact me at

How about Sept? I am off next week as well. Taking a bit trip to the Grand Canyon. Floating down to Phantom Ranch and hiking out. Are you going out in the new RV?

The voice mail I left was late yesterday and I think it may have rolled to your cell. We haven't received the info yet -- would appreciate your help to get the addresses. Thanks

Chris,
I was never able to get the information on which homes in the Delfasco neighborhood got fans (addresses would be good). I would like to provide the info to the Health Department and could use the information for our future activities in the neighborhood this fall.
thanks
Rick

Rick – can you provide the info requested below? I have a mostly complete draft report for Grand Prairie and would like to include that information.

I'll be sending the draft around for internal review first, and will include EPA on the next review.
